CONTRIBUTIONS

NUMBER 1

Editorial The great Channel Tunnel	Dr Anthony R. Michaelis	1
Obituary Arthur John Birch		6
Comment Has smallpox virus a future?	Dr Bernard Dixon	8
Comment Institut Louis Armand for 'enterprises of great pith and moment'	Dr Frank P. Davidson	11
Present dangers to science and society	Dr Frederick Seitz	21
Microsystems technology: German Government plans and actions for the future	Dr Hans-Peter Lorenzen	27
Safety science needed: experience in, and outlook for, technology	Professor Dr Ing Dr hc Albert Kuhlmann	33
100 years of X-rays	Professor Fathi Habashi	36
Codemakers versus codebreakers	Professor Fred Piper	45
Pictures of science	Professor Pierre Laszlo	51
Derek J. de S. Price (1922–83): historian of science and herald of scientometrics	Professor Eri Yagi, Professor Lawrence Badash, and Professor Donald de B. Beaver	64
Book reviews		85
'To see the obvious'	Sir John Cornforth, AC, CBE, FRS	
'Information, entropy and progress'	Dr Peter Trier	
'In search of the dead'	John Heyer, OBE	
'Challenge to change: Australia in 2020'	Basil Walby	
'Water, uses and reuses'	Dr Franz-Joseph, Graf von Westphalen	

NUMBER 2

Editorial Information bureaucracy: Australia and Singapore compared	Dr Anthony R. Michaelis	89
Comment The power of science	Professor Dr Heinz Maier-Leibnitz	94
Comment Gene therapy: hopes, hypes, and hurdles	Dr Inder M. Verma	96
Essay review The real King Arthur: an example to follow	Dr Frank P. Davidson	99
Science and society: the natural–unnatural dualism	Professor Jean-Marie Lehn	103
The public misunderstanding of science	Professor Dr Ernst Peter Fischer	110
Advanced materials mean advanced engines	Stewart Miller, CBE, FEng, FRS, FRSE, FIMechE, FRAeS	117
Stop – chemophobia	Dr Anthony R. Michaelis	130
Schistosomiasis: a persistent parasitic disease	Dr David Rollinson and Dr David A. Johnston	140
Kobe and Northridge: two earthquakes compared	Dr Anselm Smolka	155
Promoting innovation: innovate or die	Ian Harvey	169
Book reviews		173
'Intellectual property and the academic community'	Lee Loevinger	
'The Antarctic voyage of HMAS Wyatt Earp'	Dr David J. Drewry	
'Entfesselte Erde – Vom Umgang mit Naturkatastrophen'	Dr Gerhard Berz	
'Alfred Bader – the adventures of a chemist-collector'	Professor Roslynn D. Haynes	

NUMBER 3

Editorial **Antarctic research and the earth's environment**	Jack Harris	177
Comment **Genome progress**		180
Comment **Urgent need for a conservation corps**	Janet R. Caristo-Verrill	182
Essay review **Population complexity: a step backwards for policy**	Professor Malcolm Potts, MB, PhD	186
Essay review **Thoughts on 'Tackling the mathematics problem'**	Dr Alan R. Camina	189
New methods of power generation	Professor Ian Fells, FEng, FRSE	192
Smart materials and structures: the emerging technology	EurIng Dr Clifford M. Friend	195
The geography of the information economy	Professor Peter Hall, FBA	199
Industrial espionage and innovation	Professor Stuart Macdonald	209
Technology transfer: getting from here to there: from 'know how' to 'how to'	Professor Jennifer Tann	215
The invention and future of the computer	Lee Loevinger	221
New ideas about old units of length	Privatdozent Dr Dr Rolf C. A. Rottländer	235
Acid rain	Dr Mathew R. Heal	243
Geomorphological 'hotspots' and global warming	Professor A. S. Goudie	253
Book reviews		260
'From the lab into the world. A pill for people, pets and bugs'	The Late Emeritus Professor Arthur J. Birch and Dr Joan Clarke	
'The Faber book of science'	Emeritus Professor S. A. Barnett	
'You have to be lucky – Antarctic and other adventures'	Margaret Percy	
AGF Dokumentation (12) 1995 Workshop: 'Gemeinsam mit den Frauen – Neue Wege in der Forschung'	Jürgen Schlegel	
'The next 500 years. Life in the coming millennium'	Ian Ridpath	

NUMBER 4

Man – environment – technology: interdisciplinary science support by the Gottlieb Daimler and Karl Benz Foundation

Editorial **Man – environment – technology**	Dr Anthony R. Michaelis	265
Comment **Philanthropy and industry**	Professor Dr-Ing eh Werner Breitschwerdt	267
Comment **Foundations – partners of the universities**	Professor Dr-Ing Dagmar Schipanski	269
Comment **The role and significance of foundations in society**	Professor Dr Heinz Riesenhuber	271
Comment **Industry sets store by cooperation with the sciences and foundation trusts**	Dr Manfred Gentz	273
Comment **Industrial foundations and society**	Professor Dr Gisbert Frhr zu Putlitz	275
The interdisciplinary discourse: the sponsorship concept of the Gottlieb Daimler and Karl Benz Foundation	Dr-Ing Diethard Schade and Professor Dr Gisbert Frhr zu Putlitz	277
The modern world and the humanities	Professor Dr Jürgen Mittelstrass	284
Interdisciplinary design: knowledge and ability needed	Professor Dr-Ing Gerhard Pahl and Professor Dr-Ing Karl-H. Grote	292
The first decade: environmental sciences at ETH-Zürich	Professor Dr Ulrich Müller-Herold	304
Engineering – between can and ought: the responsibility for technology	Professor Dr Dr hc mult Hans Lenk and Assistant Professor Dr Matthias Maring	316

Risk in environmental and health protection: identification, assessment, and management	Professor Dr Dietrich Henschler	324
Secure communication: trust in technology or trust with technology?	Professor Dr Günter Müller	336
Laws and technical standards for safety and environmental protection: goals for future action	Professor Dr-Ing Karl Heinz Lindackers	348
Freedom and environmental protection as a constitutional problem	Professor Dr Michael Kloepfer	354
Organisational restructuring as an innovation strategy: lean production in industry	Professor Dr Hans-Joachim Braczyk	362
The future of the city: problems and perspectives	Professor Dr Dieter Sauberzweig	373
***Appendix* Activities and publications of the Gottlieb Daimler and Karl Benz Foundation**		385
